

Ascent Maintenance, Repair, & Overhaul (MRO)
 Solution to Achieve Operations 360 in Public Sector

Ascent Solutions extends Salesforce Public Sector capability as the Digital Platform for logistics, maintenance, and overhaul (MRO) management. Enable government agencies to dramatically improve operations and accountability with inventory control and track/trace for work orders, warehouses, and purchasing management.

We summarize this capability as the 4 Rs for public sector: Replenish, Repair, Reuse and Return

Inventory Control

Accurately replenish inventory levels, manage lots, view serial # granularity, control units of measure, costing models and transaction histories with full visibility, in real time.

Work Order Management

From product inspection, installation to equipment maintenance and repair, including other types of service requests, while tracking labor, parts consumptions to invoices.

Pick, Pack, and Ship

Create picking lists, pack from a specific location or lot and generate shipping labels with a few simple clicks. Streamline the process for reuse of repaired parts.

Returns Management

Simplify complex reverse logistics processes to support returns, swaps and replacement orders. Access warranty information while enabling users to return products or materials to their final destinations.

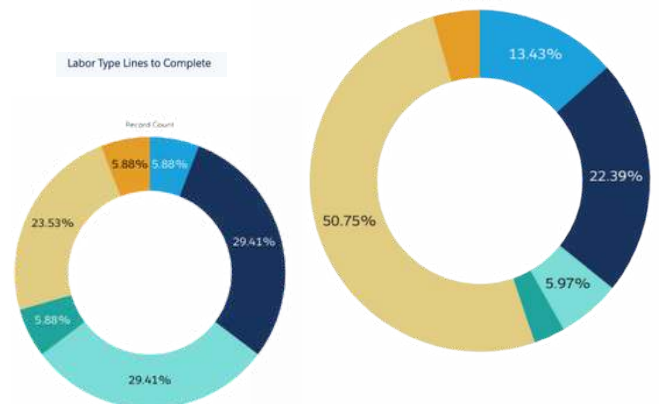

Powerful Insights for inventory control and work orders, including track/trace, lot serialization, and warehouse management.

Work Order Lines

benefits

Increase Visibility and Accountability

Improve replenishment, repairs, reuse, and returns by managing inventory and work orders more effectively with deeper insights for materials, location (track/trace), fulfillment, returns, and vendor management.

Reduce Operational Costs

Lower costs associated with excess inventory, slow fulfillment and inefficient vendors. Evaluate suppliers, negotiate costs and improve vendor performance to enhance your overall operations.

100% Compliant Solutions

Ascent Solutions is a 100% Native Salesforce ISV & OEM Partner that leverages Salesforce US Certified Database and is Federal Risk and Authorization Management Program (FedRAMP) approved.

Extend Salesforce Government Cloud

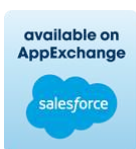

Extend Salesforce functionality with real time inventory, work order, and return management features that empower warehouse technicians and mechanics with critical insights to better service work orders.

SYMBIOLOGY DC LLC (SDC) is an Ascent Solutions certified partner that provides cutting-edge data capture services for public sector including hardware and software solutions.

SDC is a SBA certified 8(a)/HUBZone & DBE with it's headquarters in Washington, DC.
